Light a room — keep 15%.

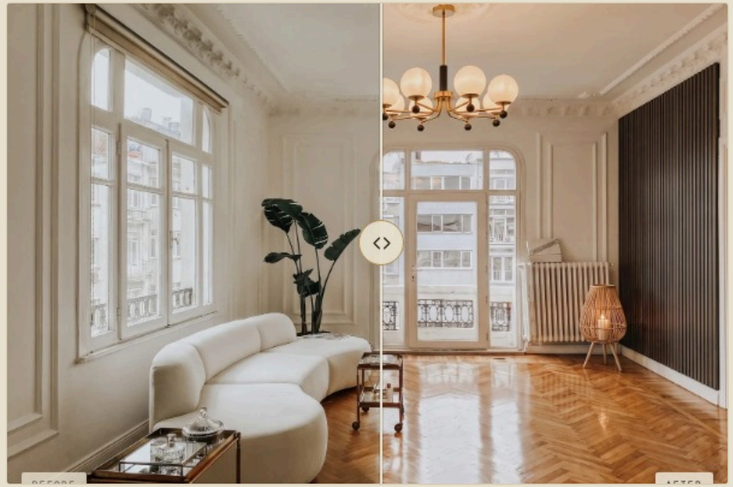

MEDIA KIT · 2026

Most brands make objects that hold a room. We make the light that fills it.

Chandeliers, sconces, pendants and solid brass. Designed around the light they throw. Free shipping, worldwide.

Three things you can say — and all three are true.

They can see it in their own room first.

Studio redraws their room with real pieces. The Visualizer puts one fixture on their wall. Every render is buyable. No other lighting brand gives your audience that.

Designer light, without the designer markup.

The forms your audience saves from Italian and French houses, at a price they will actually check out with. One cart, one checkout, shipped to the door.

It was made for the camera.

Brass, alabaster and glass, lit low and warm. The patterned shadow beside every piece is ours. It reads on a phone screen at dusk, which is where your audience is.

THE LIGHTING SIGNATURE QUIZ

Seven taps — and they know their light.

Five image pairs, one room, one project stage. About a minute. At the end, one of six lighting signatures: a name, a short editorial description, the palette their taps built, and an edit of pieces chosen for it.

The Warm Minimalist
Alabaster, linen, quiet brass.

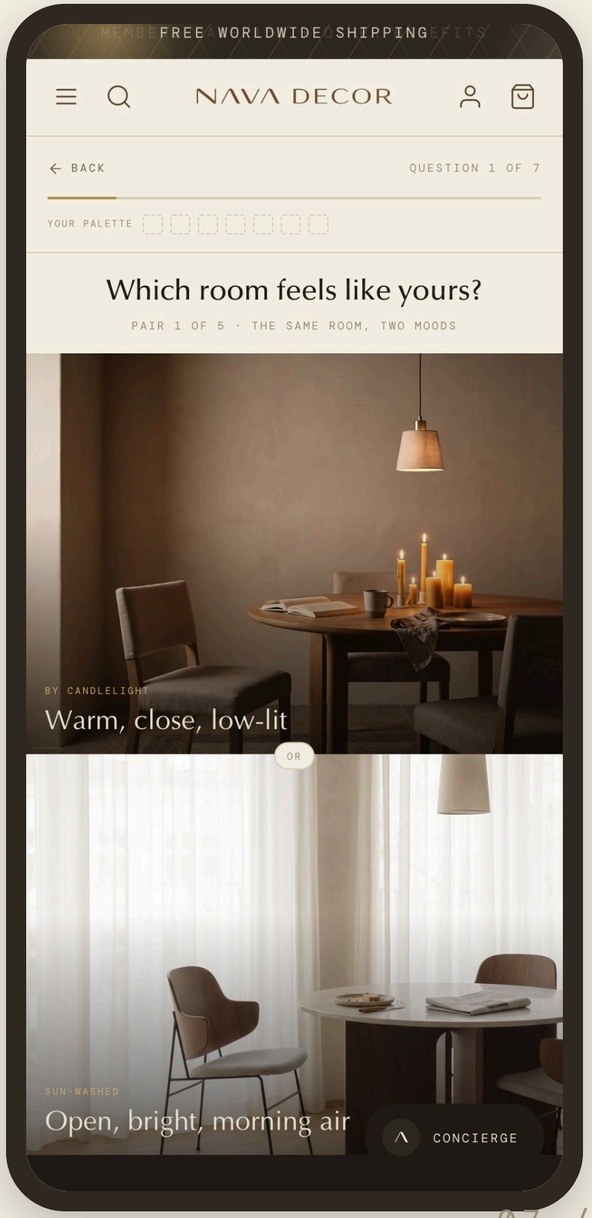

The Evening Cinematic
Smoked glass, low warm light, shadow.

The Gilded Romantic
Crystal, tiered chandeliers, Art Deco.

The Classicist
Heritage forms, patina brass, permanence.

The Light Seeker
Airy, natural, coastal calm.

The Sculptural Modernist
Contemporary statements, acrylic and LED forms.

YOUR AUDIENCE GETS

Their signature, an edit of pieces made for it, and 10% off.
